Health And Safety

Field inspections involve a certain degree of risk. Inspections of wastewater treatment plants, manufacturing plants, laboratories and mines are each associated with various hazards. A safe field inspection depends on the recognition, evaluation and control of hazards. Cal/OSHA regulations and established safety policies are continually being updated. This course/manual has been assembled as a "hands-on" tool for all personnel conducting field activities.

October 31, 2006
9:00 am - 2:00 p.m.
Annex 3 Conference Room
9460 Telstar Ave, Suite 1,
El Monte, CA 91731
